

## Mission Statement

Last Updated Tuesday, 02 September 2008

It is the "mission" of The Center For Paranormal & Unexplained Research & Investigation to collect, document and research paranormal and unexplainable events and activities. Further, The Center For Paranormal & Unexplained Research & Investigation plans to develop new technological methods to investigate and better document such events and activities, and to provide explanations and/or less refutable evidence to the paranormal.

Some of the areas we are looking into investigation and research include:

- Ghosts and Hauntings, including orbs, shapeless shadows, and those who can communicate and/or actually see ghosts
- UFO and Alien sightings and reports
- Unexplained Events and Activities (including historical)
- Mysterious Historical Phenomena, such as Atlantis, The Bermuda Triangle, Stonehenge and the Pyramids
- Technological advances and methods of research and investigation of paranormal events and activities
- ESP, Telepathy, Clairvoyancy, Parapsychology
- Electronic Voice Phenomena (EVP), also known as White Noise

The Center For Paranormal & Unexplained Research & Investigation is aware of many of the current methods used for such research and investigation, and will utilize many of these as well. Our intention is to improve upon the methods and procedures to enable better documentation and less disputable evidence of:

- A Natural reason or explanation for the phenomena
- A Man-made reason or explanation for the phenomena
- Evidence of the Paranormal
- Evidence of Parapsychological Events/Activities/Abilities

We welcome all submissions and photographs. When submitting events, photographs and narratives, you are also providing The Center For Paranormal & Unexplained Research & Investigation with an indefinite license to publish, use, investigate and share same with third parties. We will not use your name or other personal information if you indicate your desire.

Since our funding will be through donations and grants, The Center For Paranormal & Unexplained Research & Investigation appreciates all donations from individuals, organizations and businesses. We also welcome ideas of methods, practices, technology, etc., to improve the research and investigation of events and activities. In submitting ideas, you are allowing The Center For Paranormal & Unexplained Research & Investigation to include same in proposals for grants and funding, as well as publication on the The Center For Paranormal & Unexplained Research & Investigation website.
